

INDEPENDENCE THEIR AMBITION

Filipino Assembly Before Final
Adjournment Passed Resolu-
tion Declaring for It.

PROCEEDINGS HARMONIOUS.

Delegates to Congress Instructed to
Present Question to That Body
When Opportunity Presented.

Manila, May 20.—With but slight variation from its action on final adjournment of the session of 1908, the Philippine general assembly in the closing hour of its session today passed a second resolution declaring in favor of the independence of the islands. The last formalities with the Philippine commission had been exchanged, and the statutory hour of adjournment had passed, when the question was presented by Speaker Osmena. He said the policy of the assembly was to work in harmony with and support the government in all measures calculated to advance the interests of the Philippines. Nevertheless, the members had not abandoned their original aspiration for independence, and, therefore, he moved that the Filipino delegates to the Congress of the United States be instructed to present the question to that body whenever an opportunity was offered.

The members of the Progressist, or minority party, asked permission to abstain from voting, which was granted. All the Nationalists then voted in favor of the resolution.

The closing days of the session were marked by great harmony between the assembly and the commission, and practically all the important legislation desired by the government was enacted. Among the most important measures passed were the railway guarantee bill, which insures the construction of a railway to Baguio and the extension of the lines in central Luzon to the extreme southern part of the island, practically making a through trunk line across Luzon from north to south, and a bankruptcy act of general application. It was decided to change the date of the meeting of the legislature from the hot spring season to October, and, therefore, there will be no further session until the fall of 1910. The total amount of the budget passed is 16,500,000 pesos.

PAINFUL TREATMENT OF SCIATICA

Left Patient in Worse Condition
Than Before—When Blood Was
Restored Health Followed.

Of the many forms which rheumatism takes, that which is popularly known as sciatic rheumatism probably tortures its victim more than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proved by the following statement, and no sufferer who reads this can afford to let anything stand in the way of trying this treatment.

The cure of Mr. George H. Owen, of No. 44 Lincoln Street, South Framingham, Mass., is convincing proof of the superiority of the treatment with Dr. Williams' Pink Pills over the usual medical treatments for sciatica. Mr. Owen is an engineer with the Dennison Mfg. Co., where he has been employed for over 35 years. Of his cure, Mr. Owen says:

"Through overwork and a bad cold, which settled in my back, I was attacked by sciatica in my right leg several years ago. I was bent over with pain which was continually present. It grew so much worse that the doctor recommended a blistering plaster. Then my leg was lanced and the pain relieved by injections of morphine. After all this treatment for the sciatica I was left in a run-down condition and my doctor failed to build up my strength."

"My blood was in poor shape and I had no appetite. I was restless at night. There was a constant dull ache across my back. During my sickness I was often confined to my bed and lost in weight from 165 pounds to 115 pounds."

"I was in despair of ever getting better but fortunately Dr. Williams' Pink Pills were recommended to me by some friends. The pills soon had my blood in good condition but, I took them steadily until I was fully restored to health. I am very grateful for the benefit Dr. Williams' Pink Pills gave me and always recommend them to my friends."

COLORADO CATTLEMEN- SHEPHERD FEUD

Grand Junction, Colo., May 21.—That another outbreak of the feud long existing between cattlemen and shepherds using the range in the western part of Mesa county, the scene of the butchering of 3,000 head of sheep yesterday, is imminent, is the news contained in a message received from Atchee, Colo., to-

day. Shepherds, who have a long list of murders and sheep slaughters to aver, are in arms, and a large party left Atchee last night to ride across the dead line, which marks the boundary between the grazing domains of sheep and cattle to apprehend the band believed to be responsible for the many outrages. A sheriff's posse is also traveling to the scene, having started from Mack in an automobile last night, but no work is done from the officers.

Word received tonight from Atchee brings the information that the sheriff's posse, which is scouring the range in search of the band that raided the Taylor sheep camp Wednesday, has so far failed to find the slightest clew to the marauders. More herders joined the hunt this afternoon, but tonight there is small hope of apprehending the culprits.

Shepherds declare that the present band is the same that murdered Peter Swanson, a shepherd, at Indian Creek, two years ago. A reward of \$1,000 offered at that time for the arrest of the guilty parties is said still to be standing.

Should the posse and raiders meet in the hills, a pitched battle is expected.

CAUSE OF RECURRENCE OF BAD DAYS EXPLAINED

Chicago, May 22.—A special cable to the Record-Herald says that London is most interested in the theories of Dr. Herman Swoboda, a prominent physician of Vienna, on recurrent "bad days."

Dr. Swoboda says that men suffer one of these "bad days" without having committed any excess of any kind. "Bad day" comes to a man without any appreciable external cause. He may suffer from headache, palpitation of the heart, indigestion, nervous excitability or hesitancy. Strangely enough, the "bad day" recurs regularly every twenty-third or twenty-fourth day, or, at the most, at an interval of one or two days. It occurs on one of these critical days, says Dr. Swoboda, when the machinery of the human body is in bud working order.

Dr. Swoboda applies this theory to mental phenomena too; thus, he says, a man's grief for a relative's death is deeply felt for 23 days then begins to grow less. Not every natural disaster occurs on one of these critical days, says Dr. Swoboda, when the machinery of the human body is in bud working order.

EARL OF RONALDSBAY'S APOLOGY TO COUNTESS

Chicago, May 22.—A London special cable to the Record-Herald today says:

"The Earl of Ronaldsbay's apology to the Countess Granard, who was Miss Beatrice Mills of New York, for publicly calling her a dumped American heiress, who has been fortunate enough to secure a husband, is not even the merit of spontaneity. The apology was made in deference to the king's expressed wish. Were it not for the American peerages, the American millionaires, that luxurious circle of English society patronized by the king, could not exist a month, so King Edward frowns on anything that might discourage English peers from marrying wealthy American women, or anything likely to render English society distasteful to American women."

"EIGHTEENTH CENTURY LODGE"

Ann Arbor, Mich., May 22.—Members of "Craftsmen" the Masonic organization, composed of students and faculty of the University of Michigan, last night presented "An Eighteenth Century Lodge" at the Whittier theater. The play was witnessed only by Masons and is a portrayal of the lodge as conducted in 1723. It was written expressly for the presentation by J. E. Morcombe, one of the Tyler-Kingstone. The staging and costuming were historically correct. Mr. Morcombe having had as co-laborers, Masonic historical students in England and Ireland.

KINDNESS MAY CAUSE TROUBLE

Federal Official Circles in San
Francisco Wrought Up Over
Landing of Admiral Uriu.

NAVAL AIDES IN GREAT HURRY

Brought Distinguished Japanese and
His Wife to Shore Without Con-
sent of Collector of the Port.

San Francisco, May 22.—Were the naval aides appointed to meet Admiral Uriu guilty of smuggling the famous Japanese sea-fighter, the baroness, his wife, their baggage and their valet into this country? This is the momentous question which has been agitating federal official circles ever since Capt. Edward W. Eberle, commandant of the Yerba Buena training station, in his eagerness to welcome the distinguished visitors on behalf of the army and navy took them from the Nippon Maru yesterday without the formality of first securing the consent of Boarding Officer Charles Stephens, the personal representative of the collector of the port, Frederick Stratton, who in the present case also claimed to be the personal representative of the president of the United States. Now Stratton claims that the rules of the United States treasury department have been violated by Eberle and that the latter has laid himself liable to a fine of \$2,000, \$1,000 each for landing the noted admiral and his charming wife before the formalities of the custom service had been complied with.

Early yesterday morning the navy officials sailed forth in the tug Vigilant to meet the visitors and at the same time as his customs when a liner appears in port Chief Boarding Officer Stephens started out in the revenue tug Golden Gate. But unlike ordinary trips he went armed with instructions to pass the admiral and his party into this port free of duty and the petty annoyances which less distinguished travelers must endure. The navy tug proved the faster, however, and when Stephens arrived Capt. Eberle had made off with Admiral Uriu, his wife and his baggage without even a by your leave to the representative of another arm of the government which was seeking to do honor to the famous visitor. There was nothing for the official representative of the president to do but to report to his superior, the collector of the port, and nothing for the latter to do but report to Washington. Eberle had so and the outcome is awaited with interest.

Some "Funny" Things

We know that if you knew just the class of work we turn out of our workshop from its various branches that no other shop in town could live.

That seems "funny" doesn't it but so does a great deal that's true.

A "funnier" thing is to see competitors advertise "the largest stock of diamonds in Utah, etc." when anybody can go to the tax records and see that the Leyson Company does now and has for years paid the largest tax of any jewelry house in Utah on its stock of merchandise.

Think it over and phone 65 for the correct time.

Mr. Shaw, in a characteristic interview in the Daily Chronicle, says: "The censor objects to the play, not because it is irreligious, but because it is religious and because it suggests belief in God by picturing a set of ungodly people who wake up to the perception that God is real, vital and active existence. The remarkable thing is that while it is permissible to represent God as a quality costumed figure, as in 'Everyman,' any verbal allusion to him is immediately tabooed."
